PRINTING INSTRUCTIONS FOR THE CASE HISTORY INDEX

The Case History Index has been divided into six sections. You may view or print the entire document or only that section that is relevant for your current needs. The Case History section contains a glossary of terms and several special interest areas for those seeking a more complete view of the history of records in the custody of the Clerk of Court's Office. It also contains specific information on how to research case categories that have exception requirements.

The Adult, Juvenile and Marriage License Index sections are listings of all Superior Court cases by category, number and year, along with their totals and growth percentages from year to year.

The Adult and Juvenile Charts are supplied as visual attachments to the information supplied in the Case History index, offering different interpretations of the data and how some of the Index information relates to Maricopa county population growth.

MARICOPA COUNTY – CLERK OF SUPERIOR COURT

MICHAEL K. JEANES

The Clerk of Superior Court's Office was established by the Arizona Constitution as an elected office with specific and special duties, primarily to serve as the official record keeper and financial officer for the Superior Court. The functions of the Clerk of the Court satisfy more than 500 state statutes and court rules. One of the major functions for which the Clerk is responsible is to receive, distribute and preserve official records for all Superior Court actions; i.e., civil, criminal, juvenile, probate, tax, and domestic relations matters.

The Case History Index was originally created to show the yearly growth percentage for cases filed with the Clerk of Superior Court's Office. It has since evolved to include some historical information, and provide location and access information, as well as summary figures, for each case category. Additionally, in late 1997, the Clerk's Office, with Superior Court, developed a Web site for access to the Clerk's Office Docket.

...The office of the Clerk can be traced back to the year 1272 AD in the History of Corporation of Old London. In the 1500's in England there was not only the Towne Clarke, but also the Clerc Comptroller of the King's Honorable Household. In 1603, there was a Clarke general of the Armie. King Henry VIII had a Clarke of the Spicery.

When the early colonists came to America, they set up forms of local government to which they had become accustomed, and the Office of the Clerk was one of the first established. The colony at Plymouth appointed a person to act as the recorder.

Over the years, Clerks have become the hub of the government, the direct link between the residents and their government. Their Clerk is the historian of the county, for the entire recorded history of the county and its people are in his care.

On March 21, 2006 Supreme Court Administrative Order 2006-029, Arizona Code of Judicial Administration 3-402: Superior Court Records Retention and Disposition was signed replacing Administrative Order 1991-013. A.R.S. 41-1339 requires Superior Court Clerks to transfer permanent files to the Director of the Arizona State Library, Archives, and Public Records (ASLAPR) at the end of their prescribed retention period pursuant to court rules. Rule 29, Rules of the Supreme Court requires the court to adopt retention and disposition schedules and purge lists for the court records. Extensive background work spanning the course of several years established a more efficient and effective guide for preserving for the official record for all Superior Court actions, as is reflected in this new Administrative Order, as well as becoming the forefront leading towards the electronic court record.

**1/1/07 Initiative
(Supreme Court Administrative Order 2006-96)**

January 1, 2007 was a significant milestone for the Clerk's Office. It was the day that Clerk of the Court, Michael Jeanes, implemented an end to placing paper documents received into hard copy files (adult case types only), eliminating the need for folders to be created and maintained for cases filed on and after 1/1/07. Instead, the paper documents filed are scanned, audited, and then disposed of after a series of quality checks for accuracy are completed. To achieve this major goal, the Office obtained Supreme Court Administrative Order 2006-96 authorizing the Clerk of the Superior Court in Maricopa County to dispose of certain paper filings after their electronic image is captured and maintained, ensuring the Office complied with all minimum standards and requirements for access, availability and retention while maintaining multiple electronic backup systems to access and preserve active and archived court records; thus, recognizing the Electronic Court Record (ECR) as the original. Pursuant to the Order, the "original" document is the electronic image of that document as maintained in the Clerk of the Superior Court's Electronic Document Management System (EDMS).

As a result of this progress, customers who request a file from 2002 to the present date are referred to the Public Access Terminals available at customer service locations to view the record. The hard copy file is no longer pulled from the fileroom, as it would not represent the complete record. Some documents exempt from this process, pending further order of the court, include lower court appeals documents, original administrative records under review, paper bonds, wills, criminal sentencing minute entries, juvenile documents, water documents, and depositions and transcripts.

In accordance with the Administrative Order, the Office disposed of the first box of court documents in March 2007. The box contained 2,500 documents and 6,000 pages. Paper documents placed in hard copy files fill hundreds of shelving units that require a tremendous amount of space and maintenance with required staffing levels to process and transport requested case files and documents to court divisions and various other customers. Disposing of paper documents saves a significant amount of storage space for the Office, along with associated cost for the County. By ending the operational demand of pulling and delivering court case files that are now available electronically, the Office is able to focus its resources on better managing access to the electronic court record and on processing the increasing number of Superior Court filings. "Transporting" these documents or case files is now performed at the click of a button allowing a multitude of customers to access electronic court records simultaneously; a most efficient and effective process for providing access instantaneously and a "win-win" situation for all.

MARICOPA COUNTY LANDMARK AND RENOWNED CASES

MIRANDA CASE: In 1963, Ernesto Miranda was accused of kidnap and rape and was arrested in Phoenix. Miranda was subsequently found guilty and sentenced to 20 years in prison. This conviction was appealed all the way to the United States Supreme Court. In 1966, Miranda and three similar cases were joined and in a landmark decision, the Supreme Court determined that an accused individual has the right to remain silent and that prosecutors cannot use statements made by the accused while in police custody, unless the individual has been advised of their rights. The case numbers for the Miranda case are CR41948. These files are available on microfilm at CSC. Some exhibits are at the State Archives and some are at the U.S. District Court.

WINNIE RUTH JUDD CASE: Also known as the "Trunk Murderess Case", it began in Phoenix in 1931 when Winnie Ruth Judd was accused of killing two women she had known for some time as neighbors and roommates. The purported motive was jealousy over a local businessman named Jack Halloran. The bodies of the murdered women were cut into pieces, packed in trunks and shipped to California where a railroad baggage handler noticed a peculiar odor and saw leakage from the trunks. Winnie Ruth Judd was arrested and stood trial in Arizona. She was found guilty on February 8, 1932, although she maintained that her actions were taken in self defense. Jack Halloran was indicted but not convicted. Judd was committed to the Arizona State Hospital. She escaped twice in 1939, once in 1947, once in 1951, and twice again in 1952. A grand jury recommended that her death sentence be commuted to life imprisonment in 1952. In 1962 she escaped to California where she lived until 1969, when she was discovered and extradited to Arizona. She was pardoned by Governor Jack Williams in 1971. The case numbers involved are CR11333, CR11340, and CR11342. The files are available on microfilm at CSC. Original records and exhibits are available at the State Archives.

KINGMAN FIRE CASES: In July 1973, an explosion of a propane tank car in Kingman, Arizona resulted in many deaths and injuries. As a result over 50 suits were filed in Superior Court. The following are the civil case numbers that correspond to the Kingman Fire Case: C279454, C280110, C280147, C280366, C280506, C280507, C280753, C280834, C282642, C282643, C284510, C284997 through C284999, C285935, C286425 through C286434, C287993, C288731, C289897, C292820, C293537, C295290, C295406 through C295414, C295498, C295536, C295537, C302675, C304182, C304183, C307729, C304182, C304183, C307729, C309004, C310857, C314190, C314723 through C314726, C315765, C315798, C315980, C316015, C316058, C327435, C333263.

THE GILA RIVER ADJUDICATION (W1, W2, W3, AND W4 CONSOLIDATED): The Water Case, as it is known, became a judicial proceeding in April 1979 when a petition to determine conflicting water rights, filed by the Salt River Valley Water Users' Association, was transferred from a state agency to the Maricopa County Superior Court. The case was initiated in order to resolve the issue of who has what rights to surface water and appropriate groundwater in Arizona. Originally, the only watershed involved was W1, the Salt River Watershed. In November 1981, the following watersheds were consolidated into W1: W2, Verde River; W3, Upper Gila River; and W4, San Pedro River. The full case is *In re the General Adjudication of All Rights to Use Water in the Gila River System and Source, W1, W2, W3, and W4 (Consolidated)*.

Six Indian water rights settlements have been approved: W1-200, *Salt River Pima-Maricopa Indian Community Water Rights Settlement*; W1-201, *Fort McDowell Indian Community Water Rights Settlement* and W1-202, *Yavapai-Prescott Indian Tribe Water Rights Settlement*, W1-204, *San Carlos Apache Tribe Water Rights Settlement*, W1-207, *Gila River Indian Community Water Rights Settlement*, and W1-208, *Tohono O'odham Nation Water Rights Settlement*.

Several injunctive relief matters, listed under the main docket number, are pending in the Salt and Verde River Watersheds.

STATE OF ARIZONA V. JOHN HENRY KNAPP, CR78779: On November 16, 1973, a fire in the Mesa residence of John and Linda Knapp claimed the lives of their two infant daughters. John Henry Knapp was accused of setting the blaze with Coleman fuel and charged with two counts of first-degree murder. He was tried in August 1974 but the jury was unable to reach a verdict. A second trial commenced in October, and on November 19, the jury found Knapp guilty on both counts of murder. On January 6, 1975, he was sentenced to death in the gas chamber and transported to the Arizona State Prison to await execution. His conviction was affirmed by the Arizona Supreme Court on March 9, 1977. After a series of appeals, a fifth petition for post-conviction relief was granted on February 11, 1987, vacating Knapp's conviction and sentence and granting him a new trial. Research over the intervening twelve years had the phenomenon of "flashover", in which the damage from a high temperature fire mimics that of one set using an accelerant. This gave substantial weight to the theory that the fire could have been set accidentally by the girls themselves. However, much of the state's tangible evidence had by that time been destroyed, and the Attorney General's Office was unable to proceed to trial. The case was dismissed with prejudice on December 21, 1987. The case may be viewed on microfilm at CSC. Original documents and exhibits are at CSC and CCB.

THE SOUL CASE, P58416: On January 2, 1946, James Kidd executed a holographic will which states in part: "*sell all my property...and have this balance of money to go in a research or some scientific proof of a soul of the human body which leaves at death I think in time their can be a Photograph of soul leaving the human at death.*" On proof that Kidd has absented himself from Maricopa County for such a period of time as to be presumed dead, the will was admitted to judgment by the bank. Judge Robert L. Myers declared that Kidd's will created a valid, charitable testamentary trust, and set for hearing the petitions of those individuals and organizations who sought distribution of the estate for the purpose of engaging in research under the terms of the will. One hundred thirty three claims were made, and from June through October 1967, over one hundred written and oral testimonies were heard in Superior Court. On November 7, 1967, Judge Myers signed an order appointing the Neurological Sciences Foundation of Phoenix as trustee. At that time the estate was valued at roughly \$200,000. However the decision was appealed to the Arizona Supreme Court who reversed and remanded the Superior Court's decision on January 19, 1971. Judge Myers subsequently ruled that the trust be granted to the American Society for Psychical Research, who as trustee conducted its research on its Hypothesis of Post-Mortem Survival until the funds from the Kidd estate were depleted in May 1975. The case may be viewed on microfilm at CSC.

HASH DIVORCES

HASH DIVORCES: In 1973, upon the death of attorney Vivian L. Hash, it was discovered that he had retained a large quantity of divorce decrees in his personal law office instead of filing them with the Clerk of the Superior Court because he was attempting to collect his legal fees. It was found that in each of the cases a trial was held, a divorce was granted, and a divorce decree was signed by the trial judge. An order was filed in P67632 ordering that a judgment be entered, *nunc pro tunc*, in each of the divorce cases found in Hash's office, with certain exception. Said judgment was to be entered as of the date that the trial judge signed each divorce case. In the event that a decree is not found when researching divorces for this time period, check with the following list to determine if the divorce is one of the ones whose decrees Hash retained. Decrees for these cases are on microfilm.

HASH DIVORCE EXCEPTION CASES: In the case of Alander v. Alander, # 40725, both parties appeared on February 21, 1973 and disclosed that they had requested the decedent not file the decree because they had reconciled. In the cases of Sullivan v. Sullivan, # 8577, Stewart v. Stewart, #18073, and Moody v. Moody, #6450, the court found that the plaintiffs in each case had requested the decedent not file the decrees and that Mr. Hash had advised these clients their divorces would not be valid until the decrees were filed.

IN THE MATTER OF 1980 MARRIAGE LICENSE NUMBERS 80M04612 – 80M04635

The marriage licenses and affidavits for the following Book and Page numbers are unavailable for reproduction from microfilm. These licenses were recorded and inadvertently returned to the parties prior to filming.

The information taken from these licenses was entered into the Clerk's Office L-Index system on April 22, 1980. The names of the parties married, the Book and Page number and the date this data was entered into the L-Index is the only information currently available.

The following list of names and Book and Page numbers provide enough information to allow the Clerk's Office to create an abstract of the marriage certificate. As an abstract is requested by the parties the Clerk will obtain the date and place of marriage from one or both of the parties and enter this information into the Marriage License Database. This process does not affect the validity of the marriages.

These active files were not filmed; they remained in the file room for filming at a later date. In the early 1980's they were inadvertently destroyed without ever having been filmed. If the roll of film has an "active" sheet for a specific case number, the file may be one of the files that were destroyed.

Criminal case numbers are now assigned by defendant using a three digit suffix (001, 002) to designate each defendant, and a location suffix SE or DT to identify location. In 2004 the evolution of the common case number continued with sequential case numbers being assigned regardless of the location of the hearing of the defendant (s). All cases through 2/4/01 were filed as DR. The new alphabetical prefixes are part of a statewide trend in Family Court nomenclature. They are beneficial because they simplify document flow and case management for both the Clerk's Office and Court Administration. All cases that were filed through February 4, 2001 retain the DR designation.

There is no historical information as to the location of the wills or what became of them, however there is some indication they were "kept in a separate book for that purpose" and later filmed. That film was inadvertently destroyed in 1984. Additionally, there is written information that sometime in the mid 1970's a number of Probate files and related materials were unintentionally destroyed. There is no actual documentation for the information, and only second-hand knowledge of the film's destruction.

TOTAL MARRIAGE LICENSES						602,032	

*The final recorded number for marriage licenses under the Book and Page System is 98M15873. Beginning in October 1998, the Book and Page System of recording licenses was replaced with the Marriage License Abstract System, now known as ML2000, in which each license is recorded by its six digit identification number. Licenses are filmed monthly in numerical but not consecutive order; therefore, an exact count of licenses recorded after September 1998 is not the difference between the beginning and ending case numbers. Rather, it is reflected by the total number of entries recorded in the ML2000 database.

From 1871 through 1978, licenses were recorded in Docket Books. A marriage license number for that period consists of the docket book number and the page on which it was recorded, e.g., Book 10 Page 1234. Beginning in 1979, licenses were no longer recorded in Docket Books. The book number was changed to identify the year the license was recorded and the page number was changed to reflect the consecutive number given to the marriage license, e.g., 7900001. In 1980 an "M" was added to the number to distinguish it from other categories with the same numeric format, e.g., 80M00001.

All marriage affidavits from 1884 through 1983 are on film, in alphabetical order by female maiden name. This includes affidavits for licenses which were returned and recorded, as well as for those which were unused and never recorded. Affidavits from 1984 to present are filmed with the corresponding recorded certificates or licenses. Unused affidavits from 1984 to present are filmed on a separate roll, alphabetically by male surname.

The Clerk of Superior Court authorized the Litchfield Park City Court Clerk to issue marriage licenses on July 25, 2004. The Litchfield Park City Court Clerk's Office received marriage licenses in November 2004, numbers 383301-383382 and again in April 2006, numbers 415273-415372 for issuance. Of the total number of marriage licenses received by the Litchfield Park City Court Clerk (182 marriage licenses), 82 licenses were issued and 57 licenses have been recorded. As of April 13, 2006, the Litchfield Park City Court Clerk stopped issuing marriage licenses.

The Juvenile Records section that follows appeared in the Case History Index for the first time with the 2003 edition. While Juvenile Adoption records information have been indexed back to 1934, all other categories have been indexed only back to 1968. Records for Juvenile case categories prior to 1988 are currently on microfilm. The Clerk's Office intends to add more index information on records prior to 1988 to forthcoming editions of the Case History Index.

All requests for access to juvenile records must go through the Juvenile Division of the Clerk of the Court for the reason that most juvenile records, files, exhibits and transcripts are confidential. Only the delinquency legal file of a juvenile born after January 1, 1977 is open to public inspection.

2003	JN 1000	JN 1011	12		JCC-DF		Juvenile Notifications commenced approximately July 24, 1982. Effective July 1, 1985, JN's were filed and heard at adult court instead of juvenile court unless there was also a delinquency or dependency. On July 25, 1985, 113 JN files were destroyed where the juvenile was over the age of 18. This was an "administrative destruction"; there were a total of 401 Juvenile Notifications filed at that time.

							The Clerk's Office issued the following Notice to the File in JN 89-00001 on July 19, 1991:	
							Enclosed is the only remaining JN file in the Clerk's Office. It is number JN 89-00001. The case was filed September 20, 1989. Per the procedures on the Clerk's Office's handling of JN cases dated September 15, 1989 and upon verbal permission of Presiding Judge
